Dear Professor Terry

Thank you for consulting in developing our strategy to go global with our line of organic health and beauty products. From very humble origins, we have grown to feature over 200 products, and we are proud that they have been very well received in every additional country we expand to.

We began our business in Thailand, and expanded into Cambodia and Laos. But our goal has always been to be a global company.

Recently, we joined at an international trade fair and signed our latest distributors in Dubai. Europe is our next target.

We are grateful your helping turn this local Thai company into a successful global enterprise.

Sincerely,

Ms. Manmaun Sittisak, President
Golden Herb Body Care Co., ltd
